SUMMARY

Frontend-focused Software Developer with 3 years of experience building scalable, high-performance web applications using Angular (v17+), TypeScript, JavaScript (ES6+), HTML5, CSS3, and SCSS. Proven expertise in developing responsive, user-centric interfaces and integrating RESTful APIs with efficient asynchronous data handling using RxJS. Strong experience in Progressive Web Applications (PWA), modern frontend architecture, and performance optimization. Proficient with Angular CLI, Node.js, npm, and Git/GitHub for streamlined development and collaboration. Familiar with Ionic for hybrid and mobile-first application development. Known for strong problem-solving, debugging, and testing skills, with a continuous learning mindset focused on delivering reliable, maintainable, and business-driven frontend solutions.

SKILLS

- **Frontend Development**: Angular, Angular (v17+) HTML5, CSS, SASS/SCSS, RESTful APIs, Node.js, npm, Angular CLI, PWA, Ionic Framework, Rxjs, Kadha, Jira.
- **Programming Languages**: JavaScript (ES6+), TypeScript
- **Version Control**: Git, GitHub
- **Other**: Responsive Web Design, UI/UX, Figma, Testing, Debugging, Problem Solving, Effective Communication, DSA.

EXPERIENCE

TUNERLABS – Bengaluru, Karnataka

Software Developer | June 2022 – July 2025

- Developed and maintained scalable cross-platform web and mobile applications using **Angular 17+ and Ionic Framework.**
- Integrated **RESTful APIs** with frontend applications, implementing authentication, error handling, caching strategies, and secure data flows.
- Collaborated closely with backend engineers to define API contracts and ensure consistency between frontend and backend systems.
- Designed, built, and maintained **reusable Angular libraries**, integrating them across multiple projects to improve scalability and development efficiency.
- Utilized **RxJS and reactive programming principles** to manage asynchronous data flows and application state.
- Created custom directives and dynamic forms to enhance user interaction and improve data validation experiences.
- Ensured application reliability through **unit testing, debugging, and cross-browser compatibility testing**.
- Participated actively in **Agile/Scrum ceremonies**, including sprint planning, stand-ups, reviews, and retrospectives.
- Optimized frontend performance and resolved UI issues across devices and platforms.

OTHER EXPERIENCE

- ECRAFT INFO SOLUTIONS - Business Development Manager (December 2021 – April 2022)
- Saint-Gobain – Machine Operator (2018–2019)
- FCI Electronics – QA Assistant (2016–2017)

EDUCATION

- **Bachelor of Business Administration**: ACE COLLEGE PALAKKAD,
  Bharathiyar University
  2018-2021
- **Mechanic Industrial Electronics**: INDUSTRIAL TRAINING INSTITUTE PALAKKAD
  SCERT
  2014-2016
- **Higher Secondary in Commerce** H.S.S Thenkurissi, Palakkad, Kerala
  2012-2014
- **Full Stack Development (MERN)** Entri Elevate
  OCT 2025 – Pursuing

PROJECTS

Mentoring Mobile App

Project Link : https://github.com/rahulramakrishnan3/mentoring-mobile-app

Roles and Responsibilities

- Developed and maintained enterprise-grade web applications using Angular (v13–v17+), TypeScript, JavaScript (ES6+), HTML5, and SCSS. Implemented responsive UI layouts using SCSS + mobile-first approach, ensuring compatibility across major browsers and devices.
- Integrated frontend applications with RESTful APIs, handling API consumption, payload transformation, error handling, and data rendering.
- Built complex forms using Reactive Forms, implementing validations, dynamic form controls, and clean error messaging for better user experience.
- Managed asynchronous data streams using RxJS (Observables, Subjects/BehaviorSubject, operators like switchMap, debounceTime, catchError) for optimized UI updates.
- Designed and implemented routing, lazy loading, route guards, and role-based navigation to improve app scalability and security.
- Improved application performance through best practices such as OnPush change detection, trackBy, optimized rendering, and reduced API call overhead.
- Fixed UI defects and production issues through debugging using browser developer tools and Angular debugging techniques.
- Worked closely with backend developers, QA teams, and UI/UX designers to align API contracts, validate UI behaviour, and deliver high-quality releases.
- Implemented project using Agile SCRUM methodology. Involved in daily stand-up meetings, sprint showcase and sprint retrospective.
- Did Poc for a specific new feature like Dashboard implementation, Chat Library and Utility library using angular 17+.

Mentoring Portal

Project Link : https://github.com/rahulramakrishnan3/mentorED-Portal

Roles and Responsibilities

- Developed and maintained enterprise-grade web applications using Angular (v13+), TypeScript, JavaScript (ES6+), HTML5, and SCSS. Implemented responsive UI layouts using SCSS + mobile-first approach, ensuring compatibility across major browsers and devices.
- Owned end-to-end frontend development of the MentorED Portal, delivering key modules including Login, Dashboard, Mentor Listing, Session Booking, and Admin screens, ensuring consistent UI/UX and smooth navigation flows.

Portfolio
