RAHUL KR

Full Stack Developer

9895254757 | rahulramakrishnan512@gmail.com | linkedin.com/in/rahulramakrishnan3 | github.com/rahulramakrishnan3 | rahulramakrishnan.vercel.app

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience designing and building scalable, responsive web and mobile applications using Angular, TypeScript, and RxJS. Skilled in developing reusable component libraries, integrating secure RESTful APIs, and improving application performance through reactive programming and optimized rendering. Experienced in Agile/Scrum environments, cross-functional collaboration, and delivering role-based, production-ready interfaces. Working knowledge of Node.js and the MERN stack.

TECHNICAL SKILLS

Frontend: Angular 13-19+, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS/SASS, Ionic

Backend & APIs: Node.js, RESTful APIs, Authentication, Error Handling, API Integration

Reactive Programming: RxJS, Observables, Subjects, BehaviorSubject

Angular: Angular CLI, Components, Services, Routing, Lazy Loading, CanActivate/CanDeactivate Route Guards, Reactive Forms, Custom Directives, Dynamic Forms, Reusable Libraries, Role-Based Navigation

Mobile & Hybrid Apps: Ionic Framework, Cordova (Camera, File Transfer, SQLite, Network, Deep Linking, Social Sharing), Offline-First Design

Testing: Jasmine, Karma, Protractor, Unit Testing, Debugging, Cross-Browser Testing

Tools: Git, GitHub, npm, Jira, Figma

Other: PWA, i18n (ngx-translate), JWT Authentication, Responsive Web Design, Agile/Scrum, Problem Solving, Data Structures & Algorithms

PROFESSIONAL EXPERIENCE

WPP Production, Chennai - Frontend Developer *April 2026 - Present*

- Develop and enhance features on Bayer's eWizard Content Experience Platform, a pharma-focused platform for digital content creation, management, and publishing, using **Angular** and **Vue.js**.
- Build modular, reusable content components that enable teams to create and manage reusable content blocks.
- Support scalable content operations through content libraries, templates, and **metadata tagging** workflows.

TUNERLABS, Bengaluru, Karnataka - Software Developer *June 2022 - June 2025*

- Developed and maintained scalable **Angular** (13-19+) web and mobile applications using **TypeScript**, **JavaScript**, and **Ionic Framework** across multiple client projects.
- Integrated secure **RESTful APIs** with authentication, error handling, and caching strategies to ensure reliable, secure data flows.
- Built reusable **Angular** component libraries, **custom directives**, and dynamic **Reactive Forms** to reduce duplicate code and improve maintainability across projects.
- Improved application performance through **OnPush change detection**, **trackBy**, and API-call optimization for faster rendering and reduced load times.
- Performed **unit testing** (**Jasmine**/**Karma**) and cross-browser debugging to improve application stability and reduce production issues.
- Collaborated with backend developers, QA engineers, and UI/UX designers in **Agile/Scrum** teams to deliver releases on schedule.

Key Projects:

Mentoring Mobile App | Angular, Ionic, Cordova, RxJS, REST APIs
GitHub: github.com/rahulramakrishnan3/mentoring-mobile-app

- Contributed to a hybrid mobile mentoring application built on the open-source **ELEVATE** mentoring platform, implementing feature modules for authentication, session booking, mentor search, and profile management.
- Implemented **CanActivate/CanDeactivate route guards** and a layered service architecture (auth, HTTP, session, profile, user, and local-storage services) for maintainable state and API handling.
- Built reusable UI components, including a **dynamic form builder**, **skeleton loading screens**, and card templates, to standardize UX across modules.
- Added offline support and connectivity handling via dedicated DB and network services backed by **SQLite** storage.

MentorED Portal | Angular, Angular Material, Angular Universal (SSR)
GitHub: github.com/rahulramakrishnan3/mentorED-Portal

- Scaffolded a server-side-rendered mentoring portal using **Angular 14**, **Angular Material**, and **Angular Universal (SSR)** with **Express**, and built out the initial authentication (login/register) module.

EDUCATION

Bachelor of Business Administration (BBA) - ACE College, Palakkad, Bharathiyar University | 2018-2021

Mechanic Industrial Electronics - Industrial Training Institute, Palakkad, SCERT | 2014-2016

Higher Secondary, Commerce - H.S.S. Thenkurissi, Palakkad, Kerala | 2012-2014

ADDITIONAL TRAINING

Full Stack Development (MERN) - Entri Elevate | October 2025 - Present

ADDITIONAL EXPERIENCE

ECRAFT INFO SOLUTIONS - Business Development Manager | December 2021 - April 2022

Saint-Gobain - Machine Operator | 2018 - 2019

FCI Electronics - QA Assistant | 2016 - 2017
